

Course Name: Control valve

Course Code: T.I 03

Course Duration: 16 Hours – 2 Days

Course Syllabus:

- 1. Application of different valves and their parameters**
- 2. Investigation of valves structure**
- 3. Introduction of Gate , Globe , Rotary , Diaphragm valve , etc**
- 4. Operation and characteristics of control valves**
- 5. Various Actuators for on\off & control valves**
- 6. Method of control valve calculation coefficient & valves sizing**
- 7. The problems of valves including cavitation , flashing & noise**
- 8. Conventional & smart positioners**
- 9. Types & structure of solenoid valves**
- 10. Valve Accessories**
- 11. Work Shop**
